

How to use Destined Legends™ Sideboards

Sideboards are a 15-card expansion that augments your battle deck.

To use the sideboard, exchange cards in this pack with cards from your current battle deck that match level or tier.

The Sideboards are equipped with two different lv. 5 dual-elemental weapons. Use only the ones that match the elements you have in your battle deck. (e.g. If you are using Earth and Dark, do not include the Devastator as you will not have Dark Legends that can use it. Therefore, you should only use the Ceremonial Axes.) Because of this, you should only end up switching out 13 cards.

Pack away the lv. 5 dual-elemental weapons that you are not using and the cards you removed from your deck.

Below is an example of how you could use the Earth Sideboard with Eradication.

EARTH SIDEBOARD USE EXAMPLE WITH “ERADICATION”
